(54) Title: METHOD AND ARRANGEMENT FOR ADAPTING TO VARIATIONS IN AN AVAILABLE BANDWIDTH TO A LOCAL NETWORK

(57) Abstract: In a vehicular network (10) having a plurality of connected user equipment (20), experiencing a change in an available bandwidth a method for adapting to the change is performed comprising the steps of collecting information (S0) about the users and the bearers, detecting (S1) a change in bandwidth available for the local network (10), identifying (S2) user equipment (20) in the local network (10) to be affected by said detected change, notifying (S3) the identified user equipment of an adaptation of the bandwidth for the identified user equipment, and finally adapting (S4) the bandwidth of each identified user equipment.
